

## FIND THE AREA OF A RECTANGLE

STEP 1. Start

STEP 2. Initialize length,width and area

STEP 3. Input the value of Length and Width

STEP 4. Formula

$\text{Area} = \text{Length} * \text{Width}$

STEP 5. Compute for the Area of a rectangle

$\text{Area} = 6 * 3$

STEP 6. Output or Area of rectangle is equal to 18

STEP 7. End
